

save 20% when replacing your patient slings

most hoist manufacturers insist slings are replaced if they are fraying, the stitching is loose or labels have faded

this is endorsed by ISO 10535 and LOLER, and could be used against you if an incident occurs..

our replacement slings are approved on all major manufacturers and will save you upto 20%

email, fax or call with your current sling make, model and size and we will recommend you a suitable replacement

our slings have been manufactured in the UK for over 10 years, have unique serial numbers for monitoring, are CE approved and are fully tested and insured as replacement slings

our slings
