The Nursing Bench 3000 is a height adjustable changing table suitable for changing adults and children in a variety of settings: schools, day care centres, institutions, hospitals and private homes. With the added feature of an adjustable backrest at either end, this changing table can also be used for both changing or showering and comes with a water collection tray to reduce splashing. The Nursing Bench 3000 comes with the addition of a retractable side guard for safety and support.

The changing table can be folded against the wall when not in use; maximising floor space for other transfers. The ergonomic design of this unit features both comfortable and durable surfaces using padded polyurethane and aluminium giving the user maximum comfort and safety whilst bathing or changing in a supine position.

**Unique Features**

- Wall mounted foldable unit
- Ergonomic, comfortable and safe design
- Perforated surface with water collection tray
- Retractable safety rail
- Maximum load: 200 kg
- Adjustable back support
- Height adjustment of 700mm
